To: Thiago Brasil Saraiva <Saraii_@live.com>

Mr. Thiago Brasil Saraiva provided software development services to our company, SyBridge Technologies, from April through August 2024. During his tenure, he provided exemplary performance, competently completing all engineering duties asked of him while demonstrating the utmost professionalism and integrity.

In addition to his strong technical skills, particularly his specialization in frontend development practices, he proved to be a significant cultural addition to our team who is equally capable of collaborating with teammates and working independently to solve problems.

We ended our service contract with Thiago once our project's demands were met within the expected time frame. I would not hesitate to work with Thiago again in the future, and feel it is my duty to give him a whole-hearted endorsement. He will be a great addition to your team!

Thanks you,

Cody Knauer
Director of Engineer, SyBridge Technologies
